

Hot Glass Demonstrations and Workshops

Straight Shear Demo

45 minute hot glass demonstration

See molten glass at over 1100 degrees being blown and sculpted. Learn of the history, techniques, tools and basic skills of this ancient art form. Stand right near the glass blowing work-bench, have a bird's eye view of how the glass is worked and be involved in the process by asking questions. This is a great introduction to hot glass for young and old alike.

Minimum 2 people • Maximum 15 people

\$110 per session (GST inc.)

.....

The Dark Gather

45 minute hot glass demonstration

Start the day before dawn. Watch a hot gather of glass emerge from the furnace and illuminate the space around. This pre dawn demo takes advantage of watching molten glass in its 1100 degree state being pulled, dropped and blown while the early morning is in darkness. This is an exciting and early start to the day and ideal for those wanting a very different experience before breakfast.

Minimum 2 people • Maximum 15 people

\$150 per session (GST inc.)

.....

Short sharp puff

2 hours of intense demo and workshop

If time is of the essence then a short sharp puff is what is needed. Jump straight into the fire. Grab a pipe, fill your lungs and blow. Learn as you go. Under supervision gather up some of the hot glass, roll it in color, shape it, squeeze it, cut it, pull it and create your own master piece. This session is designed to be fun, hands on, creative and quick.

Minimum 3 people • Maximum 6 people

\$110 per person (GST inc.)

.....

Steam Stick

Short demo/workshop 3 hours

Watch, learn, listen, act and then create. This session is a combination of watching hot glass demonstrations, helping with the glass making process and learning about the significance and uniqueness of the medium. You will then be invited to have a go yourselves, draw hot molten glass from the furnace at 1100 degrees Celsius and make a small piece that can be taken home as a memento. Feel what it's like to blow air into a pipe, watch your creation grow!

Minimum 4 people • Maximum 8 people

\$135 per person (GST inc.)

.....

Pipe Warmer

Half day workshop 4 hours

A complete hands on experience. Learn under supervision to gather hot glass from the furnace and shape the glass at an exciting 1100 degrees Celsius. Make a number of your own wonderful creations to take home, including paper weight, tear drop, small bowl, sand casting and sculpture. Experience what it's like to blow air into a hot molten medium, just as glass makers have been doing for two thousand years. The workshop includes morning or afternoon tea.

Minimum 3 people • Maximum 6 people

\$165 per person (GST inc.)

.....

At the Furnace Face

Full day workshop 7 hours

A complete hands on experience. Learn under supervision to gather hot glass from the furnace and shape the glass at an exciting 1100 degrees Celsius. Make a number of wonderful creations to take home, including paper weight, tear drop, small bowl, sand casting and sculpture. Experience what it's like to blow air into a hot molten medium, just as glass makers have been doing for two thousand years. You will have time to develop concepts and trial ideas in this full-day workshop. The day includes a light lunch, morning tea and a beer after a hot days work.

Minimum 3 people • Maximum 6 people

\$275 per person (GST inc.)

.....

All workshops and demonstrations are held in the Saltmarsh...Artful Living Hot Glass Studio, nestled in one of the most beautiful locations in Warrnambool, on the edge of the Merri Wetlands.

Combining over twenty years of glass making, and a life of business ownership, overseas travel, surf adventures and fatherhood, Glenistair will lead you on an exciting journey into his passion for hot glass and a creative life.

For further information or to discuss your particular request please email Glenistair and Tina – mail@saltmarsh.com.au, or phone 03 55617 727 or 0437 023 268.
